Presented at

Cyber Café, July 26, 2022

Intro Topic

Open Space

This Cyber Café was an open exchange on self-selected topics.

Attached please find some notes of topics discussed by the participating Fellow Member Trainers of the IANLP.

Heat impact on learning capabilities of students

Due to heat and dryness in Asia and Europe we started the Cyber Café with sharing on our experiences and observations.

open space Topics How to recognize a compentence?
What would a competence in [rapport] mean?
'Upchunk'-competences need to be down-chunked into applicable, observable single step abilities.__

"Competence" is always context related.

Application of competence orientation in training

We share on ways to evaluate change (progress / development) of students:

- (-) full body picture at beginning of training and end
- (-) evaluate certain (same) competences at beginning of training, middle and at end;
- (-) have people take note on challenges in their live and compare at end of training (-) self reflection at beginning of training and end.

Sharad, Anneke and Ueli have questionnaires in use. Anneke uses questionnaire by IN and University of Nicaragua. She will share with the group.

Quality Assessment System of the IANLP

Q: How many FMT have passed the QAS yet A: 1 (Ueli, only)

These are 'internal' marketing measures too. To raise students' awareness of how much they benefit from training

Apps for online learning

Ueli: I once run into a online meeting platform, where participants would visually stroll in a park. Whenever you get close enough to other 'strollers' the option to meet and share was opened. Does anyone know this app? What's the name?

Experience to share?
